REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The instant application discloses a device for detecting a demodulated signal received by a spread spectrum receiver and converted into digital samples. A search of prior art references has failed to disclose a device comprising "a sampling circuit for re-sampling said demodulated digital sample signal at said sampling frequency, which is such that the timing of samples of a sample signal going from the sampling circuit to the matched filter corresponds to the timing of the at least one reference signals of the matched filter" along with the remaining limitations of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
